Some of the best writing training I've received at Duke.

Please comment on the course dynamics.

I liked the fact that it got me interested in the current political issues. The structure of the course was rather flexible, and I felt that our interest was fully reflected in how the course worked.

Some of the readings were very dense, but overall, they provided needed background material.

The content is very repetitive, everything we learned basically said the same thing in different words

Please comment on your overall course appraisal.

Beatrice is great and the topic is really interesting. The reading can be a little dry and sometimes group discussion was difficult with my class, but with a more active class I think this class can really be great! The second half of the course which focused on current issues of justice in America was amazing.

Did not realize how many interesting topics there were.

I liked the latter half when we were particularly focused on writing and presenting - we had access to good resources and I really felt walked through the process of writing a literature review. Other than that, the course felt repetitive.

I really enjoyed the course! I learned a lot. Sometimes I felt it was a bit reading heavy, but overall I think that the work given was totally fair.

It was a very interesting class, I loved the class materials and the focus.
